

ROSTANY

BAND STORY

"

ROSTANY is the FIRST electroclash to be performed LIVE ONLY melding trance, electro, rock, dubstep, drum' n' bass - three-piece band playing EVERY SINGLE NOTE of the electronic madness with their fingers and souls.

Cosmic space, sex and expressive drive by the professional musicians of refined taste and insurmountable energy create a strong sensation of live presence and live reality that we all lack nowadays in a hi-tech time of office cells, virtual sex and fabricated freedom.

No plastic imitations - just real big serious dance music to set oneself free.
